

This scatter plot shows the distribution of four classes (g, r, i, z) in the 56300-57400 range. The x-axis is labeled from 56400 to 57400. The y-axis is unlabeled. The legend indicates: g (purple), r (cyan), i (green), and z (orange). The data points are clustered into four main groups, each corresponding to one of the classes. The 'g' class is represented by purple dots, 'r' by cyan dots, 'i' by green dots, and 'z' by orange dots. The clusters are located at approximately x-coordinates 56350, 56600, 57000, and 57350. The 'z' class has a notable outlier at the top center of the plot.
