

Scatter plot showing four classes (g, r, i, z) in a 2D space. The x-axis ranges from 5630 to 5750, and the y-axis ranges from 0 to 100. The classes are represented by different colors: 'g' (purple), 'r' (blue), 'i' (green), and 'z' (orange). The plot shows four distinct clusters of points, with 'g' points generally at higher y-values and 'z' points generally at lower y-values. A legend in the top right corner identifies the classes.
