

A scatter plot showing the distribution of four classes (g, r, i, z) across a 2D space defined by two axes. The x-axis ranges from 56400 to 57400, and the y-axis ranges from 56400 to 57400. The legend indicates: g (purple), r (blue), i (green), and z (orange). The plot shows several distinct clusters of points for each class, with some overlap between them.
