

A scatter plot showing the distribution of four classes (g, r, i, z) in the r vs. i plane. The x-axis (r) ranges from 5630 to 5740, and the y-axis (i) ranges from 17.0 to 19.5. The 'z' class (orange) is concentrated at higher i values (18.5-19.5), while 'g' (purple), 'r' (blue), and 'i' (green) are clustered at lower i values (17.0-18.0). A legend in the top right corner identifies the classes.
