

A scatter plot showing the distribution of four classes (g, r, i, z) in the x-z plane. The x-axis ranges from 56300 to 57400, and the z-axis ranges from 0.0 to 1.0. The classes are represented by different colors: g (purple), r (blue), i (green), and z (orange). The plot shows four distinct clusters of points, one for each class, located at approximately (56350, 0.1), (56600, 0.1), (57000, 0.1), and (57350, 0.1). There is also a single orange point (z) at approximately (57300, 0.95).
