

A scatter plot showing the distribution of four classes (g, r, i, z) in the r vs. i plane. The x-axis (r) ranges from 5630 to 5740, and the y-axis (i) ranges from 17.0 to 22.0. The legend indicates: g (purple), r (blue), i (green), and z (orange). The plot shows three distinct clusters of points, with 'z' points generally having higher 'i' values than 'g', 'r', and 'i' points.
