

A scatter plot showing the magnitude (y-axis, ranging from 14 to 22) versus time in MJD (x-axis, ranging from 56300 to 57400). The data points are color-coded by filter: g (purple), r (blue), i (green), and z (orange). The plot displays several distinct clusters of points, indicating periodic or quasi-periodic behavior. A legend in the top right corner identifies the filter colors.
