

A scatter plot showing four distinct clusters of data points in a 2D space. The x-axis ranges from 56300 to 57400, and the y-axis ranges from 0 to 100. The clusters are labeled 'g' (purple), 'r' (cyan), 'i' (green), and 'z' (orange) in the legend. Cluster 'g' is located at the top left, 'r' at the top right, 'i' at the bottom left, and 'z' at the bottom right. Each cluster contains several points, with some points appearing as outliers.
