

A scatter plot showing the distribution of four classes (g, r, i, z) in the x-z plane. The x-axis ranges from 56300 to 57400, and the z-axis ranges from 0.0 to 1.0. The legend indicates: g (purple), r (cyan), i (green), and z (orange). The data points are clustered into four main groups, each corresponding to one of the classes. The 'g' cluster is located at approximately x=56350, z=0.9. The 'r' cluster is at approximately x=56350, z=0.4. The 'i' cluster is at approximately x=56350, z=0.2. The 'z' cluster is at approximately x=56350, z=0.1. There is also a small cluster of points at approximately x=56600, z=0.4.
