

A scatter plot showing the distribution of four classes (g, r, i, z) in a 2D space. The x-axis ranges from 56300 to 57500, and the y-axis ranges from 1000 to 10000. The classes are represented by different colors: 'g' (purple), 'r' (blue), 'i' (green), and 'z' (orange). The plot shows several clusters of points, with a notable outlier for class 'g' at approximately (56300, 9800).
