

The figure is a scatter plot with 'time [MJD]' on the x-axis, ranging from 5630 to 5740. The y-axis is unlabeled. There are four data series represented by different colors: purple, blue, green, and orange. The data points are clustered into four main groups, one for each series, showing a similar pattern of variation over time. The purple series has the fewest points, while the orange series has the most. The blue and green series have intermediate numbers of points.
